

Oaksterdam University Presents
Methods of Ingestion Guest Speaker Series

No Cooking Required!
Edibles Preparation Course
with Miss. Bliss

Saturday, October 16th, 2010 2 PM – 5 PM

This is a “no cooking required” infusion class in addition to an introduction for concepts needed in cooking with cannabis! You will learn how to make simple food assembly recipes using a quick 3-minute tincture process. This class will be in a demonstration format using basic kitchen tools and very small appliances (coffee grinder, blender and microwave) as there will be “no cooking” required!

This new elective class is perfect for anyone interested in making a quick tincture and being able to infuse it into food! Current Oaksterdam Students and Alumni are able to sign up for this elective immediately. New Students can sign up for a prerequisite package, attend a basic weekend seminar or enroll in the fall classic semester class to be eligible. Please call 510 251-1544 or simply sign up with admissions on a first come, first sold basis. Small class size, so seating is very limited! ***\$100 per student.*** Class Code E980220101016

2:00pm - 3:10pm – Cooking with Cannabis 101

3:10pm - 3:20pm – Break

3:20pm - 5:00pm – “No Cooking Required”
