

Oaksterdam  University

Presents:

The Horticulture Guest Speaker Series

**Earth Friendly Cannaculture™
using Organics & Veganics
with Kyle Kushman**

Saturday, November 13th 2010

2:00 pm - 5:00 pm

\$100 per Student. Please call 510-251-1544 or simply sign up with admissions on a first come, first sold basis.

Earth Friendly Cannaculture™ Using Organics and Veganics taught by Kyle Kushman, a cannabis cultivation expert with nearly 20 years of experience teaching organic growing techniques. Kyle is famous for his 15+ year association with High Times Magazine, where he distinguished himself by writing dozens of stories covering all methods of cannabis cultivation and enjoyment. “Nowadays everything’s about pure, clean and residue free. We call it medicine, so make sure what you’re consuming is actually good for you.”

- Learn Veganic Cultivation Techniques to Grow the Healthiest Medicinal Cannabis Possible
- Earth Friendly Cannaculture™ has the Lowest Impact on the Environment of all Cultivation Methods
- Utilize Beneficial Bacteria, Enzymes, Microbes, and Fungi to grow bigger, healthier, more disease-resistant plants
- Maximize your efforts with Advanced Yield Techniques

There will be a short break and extra time for questions at the end of class. Current Oaksterdam Students and Alumni are able to sign up for this elective immediately. New Students can sign up for a prerequisite package, attend a Basic Weekend Seminar or enroll in the Fall Classic Semester Course to be eligible. **Class Code E940220101113**
